ABOUT ME

Passionate Systems & Network Administrator specializing in open source technologies, cloud computing, and automation. Currently working at Proxym Group, managing complex environments by integrating modern solutions such as Kubernetes, Rancher, and GitOps. My goal is to ensure IT infrastructure reliability, security, and scalability while automating repetitive tasks using tools like Ansible and CI/CD pipelines.

SKILLS

- System Administration: Linux (Debian, Ubuntu, CentOS), Windows Server, Active Directory
- Cloud & Container Platforms: AWS, Azure, GCP, Docker, Kubernetes, Rancher
- Networking: TCP/IP, DNS, DHCP, VPN, VLAN, Firewalls
- Virtualization & Backup: Proxmox VE, VMware vSphere, VirtualBox, Veeam Backup
- Automation & CI/CD: Git, GitLab CI, GitHub Actions, Jenkins, Ansible, Terraform
- Monitoring & Observability: Zabbix, Nagios, Prometheus
- Scripting & Configuration: Bash, Python, YAML, PowerShell (if applicable)
- Security & Hardening: SSH, SSL, User/Access Management, System Hardening

PROFESSIONAL EXPERIENCE

System & Network Administrator - Proxym Group

July 2024 - Present

- Administered Linux (Debian, RHEL, Ubuntu) and Windows servers
- Maintained internal network infrastructure (switching, routing, VLAN)
- Deployed virtualized environments using Proxmox and managed Docker containers
- Set up and maintained Kubernetes clusters (on-premise & cloud)
- Managed multi-cluster environments using Rancher
- Monitored system and network performance with Zabbix
- Automated tasks using Bash, Ansible, and Terraform
- Contributed to the implementation of an internal CI/CD pipeline using GitLab
- Wrote technical documentation and operating procedures

EDUCATION

Engineering Degree in Cloud Computing & Networks

EPI Digital School – Sousse 2024 – 2026

Master's Year 1 - Cloud Computing & Distributed Applications

ISET Sousse 2023 - 2024

Bachelor's Degree in Information Technology (Networks and IT Services)

ISET Sousse 2020 - 2023

CERTIFICATIONS

- Google Cloud Computing Foundations Certificate
- Microsoft Certified: Azure Fundamentals
- AWS Cloud Technical Essentials
- IBM DevOps and Software Engineering Specialization
- Advanced Bash Scripting

LANGUAGES

- French: Fluent
- English: Professional
- Arabic: Native language
